

MODEL 760™

ACETONE + SOLVENT TRIGGER SPRAYER

#110760

2.5 mL Output | 28/400 Thread

9 ½" Dip Tube

200/cs.

EXTENDED CHEMICAL COMPATIBILITY:

Constructed with materials compatible for use with a broad range of aggressive chemicals. Component material charts were evaluated for use with acetone, d-limonene, citric acid, butoxyethanol and alcohols.

FOR DEMANDING PROFESSIONAL APPLICATIONS:

Ideal for heavy-duty use in auto detailing, industrial, OEM, lawn care, and other professional applications

LARGER PROFILE:

A larger, heavier design creates a bigger feel in hand for demanding professional use

LEAK-RESISTANT GASKET:

A gasket liner and internal venting system help prevent chemical leakage through the trigger mechanism for reliable performance
