

#220218

Non-Woven Polyester Pad
8" x 7-5/8" x 1/8"
6/cs.

COMPACT MOISTURE CONTROL:

Ideal for small, high-drip areas such as under soap dispensers and sinks, helping prevent water buildup and surface damage

ADVANCED WICKING MATERIAL:

Constructed from a proprietary nonwoven material designed to wick moisture to the surface for faster evaporation and improved cleanliness

FLEXIBLE PLACEMENT OPTIONS:

Low-profile design fits easily in tight spaces, making it a simple solution for a wide range of restroom and facility applications
