Trigger Sprayers

Post Consumer Recycled Trigger Sprayer

Post-consumer recycled content, often referred to as PCR, is material that is made from the items that consumers recycle every day, like aluminum, cardboard boxes, paper, and plastic bottles. These materials are typically collected by local recycling programs and shipped to recycling facilities to be sorted into bales, based on the material. The bales are then purchased and melted (or ground) into small pellets and molded into new items. The new PCR plastic material can then be used for a variety of finished products, including this trigger sprayer.

Packaging Trigger Sprayers

Packaging trigger sprayers are all non-leaking designs and include a gasket where the collar meets the bottle. These triggers are designed to be shipped affixed to a bottle. Packaging triggers typically have a lower profile to reduce required carton height and the top of the trigger is relatively flat to allow for the carton to securely seal on the bottle to minimize bottle movement in transit. Tolco stocks packaging trigger sprayers in black or white with outputs ranging from 0.7mL to 1.5mL. We also stock ratcheted collars, as well as standard collars.

MODEL 100™ PACKAGING TRIGGER SPRAYER

- Low cost packaging trigger sprayer
- Engineered not to leak when shipped on bottles containing liquids
- Contemporary, rugged design gives product a retail appearance

Restroom Supplies

KOMODO™ URINAL FLOOR MAT

- Komodo mats' proprietary nonwoven material stands up to regular mopping and high traffic use while providing exceptional protection and odor control by wicking moisture to the surface to allow it to rapidly evaporate
- Komodo mats' design allows for packaging that is on average over 47% smaller than competitors' products allowing for twice the number of units to be warehoused or stored in the same amount of space as traditional urinal mats
- Komodo urinal mats are NFSI Certified as HIGH TRACTION, thus reducing the potential for slips and falls

DELUXE RESTROOM FLOOR MATS

- Urinal and commode mats are approximately 5% larger than traditional products and provide greater protection to the floor
- Urinal and commode mats are manufactured with a material that has a high coefficient of friction - they have better traction and a soft flexible material that conforms to surface irregularities providing secure placement of mats
- A 36% reduction in the product's profile makes urinal & commode mats ADA compliant against trip hazards

TOP PERFOAMER™ FOAM & TOP CHOICE™ LOTION SOAP DISPENSERS

- Soap can easily leak from traditional dispensers if there is any issue with the valve. The patented top dispensing design of the Top PerFOAMer™ & Top Choice™ provides no risk of leaking valves
- The dispenser can be easily converted from a foam dispenser to a lotion dispenser by simply swapping the pump
- Bulk soap is up to 55% more cost effective than prepackaged soaps. Foam soap provides 3x more hand washings than a comparable amount of prepackaged liquid soaps.
- Easy view of the soap level allows for refills on an as-needed basis to ensure there is always soap in the dispenser.
- No cartridges or bags to dispose of
- Proprietary locking system secures the dispenser to prevent tampering
- Push bar complies with the standards of the ADA
