DISPENSERS

## Shur-Fill™ Core

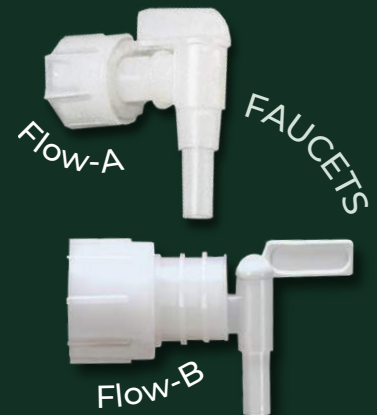

- Heavy-duty containers in 2.5 and 5 gallons
- Built for chemical compatibility and durability
- Standardized foundation for the Shur-Fill system

Cores ship with your choice of faucet (see Flow) and an included closure.

*(Seal-V for 2.5 gal, Seal-A base + closure for 5 gal)*

## Shur-Fill™ Flow

- Smooth, mess-free dispensing
- Flow-B for enhanced chemical resistance
- Sold with Core or separately as replacements or to keep both on hand

Seal-A (adapter base)  
Seal-NV (non-vented)  
Seal-V (vented)

CLOSURES

## Shur-Fill™ Seal

- Vented and non-vented options for secure closure
- Leak prevention during storage and transport
- Supports compliance and chemical integrity

*Compatibility:*

2.5 gal: Seal-V or Seal-NV fit directly

5 gal: Seal-A base required, then cap with Seal-V or Seal-NV

## Shur-Fill™ Direct

- Wide-mouth funnels for splash-free transfers
- Chemical-safe, anti-spill construction
- Available in 2, 4, 8, 16, and 32 oz sizes (8 oz built with hanging tag)

FUNNELS

## ORDERING.

- Core → Choose your container size
- Flow → Pick your faucet (ships with Core)
- Seal → Choose your closure (see size rules)
- Direct → Add funnels for clean transfers
