SQUEEGEES
A TOLCO BRAND

SteadyGlide™ Pro Handle

#280200

- Stainless steel body built for long-term reliability
- Secure spring-tooth lock keeps the channel steady in place
- Ergonomic rubber grip stays comfortable even in wet or cold use
- Compatible with all 15/16" tapered cone extension poles

SteadyGlide™ Pro Stainless Channels

#280202 - 214

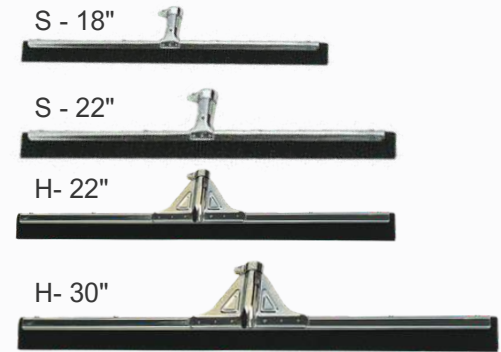

- Constructed from stainless steel for superior durability over aluminum
- Designed to fit most standard replacement blades for flexible sourcing
- Pairs seamlessly with the SteadyGlide™ Handle
- Available in four working widths: 10", 12", 14", and 18"

SteadyGlide™ HD Dual-Blade Head

#280228 - 251

- Double-blade design delivers quick, uniform drying on uneven surfaces
- Rugged steel frame paired with soft black moss rubber for top performance at a great value
- Available in 18", 22", and 30" sizes with standard or heavy-duty frames
- Fits 7/8" aluminum handles for easy use and broad compatibility

SteadyGlide™ HD Industrial Floor Heads

#280273 - 274

- Industrial-grade galvanized steel frame built for heavy-duty use and long-term durability
- Swift, high-volume liquid removal
- Integrated scraper edge helps break up tough, stuck-on residue for faster cleaning
- Compatible with standard tapered handles for flexible sourcing and easy replacement

SteadyGlide™ Sanitary Scrub Head

#280241

- Double-moss rubber blade delivers resilient, streak-free performance in wet or dry conditions
- Acid-resistant polypropylene frame designed to withstand food-service chemicals and corrosive environments
- Standard Acme-thread compatibility ensures easy pairing with most common handles
