

groundwork pro™

BY TOLCO

groundwork pro™ is made for the tough detail work machines leave behind. From scrubbing baseboards and walls to tackling grout lines and edges, this system puts reliable pads and rugged holders in the hands of cleaning crews who need to dig in. With secure spot-weld construction, interchangeable duty pads, and straightforward kits, groundwork pro™ makes it easier to handle the dirty jobs that demand control and precision. Built for janitors, maintenance crews, and contractors who want tools that won't quit, groundwork pro™ keeps the hard prep work simple and effective.

groundwork pro™ Grip

Swivel Pad Holder Scrubber + Kit

Secured Spot Welds – Heavy-duty welds keep pads firmly in place under pressure.

Versatile Connections – Available in Standard or Universal thread types for handle compatibility.

Rugged Builds – Durable construction designed for repeated scrubbing and pad changes.

Kit Options – Order as holder-only or bundled with 2 pads (Light + Heavy Duty).

groundwork pro™ Driver

Hand Scrubber + Kit

Spot-Weld Security – Pads are fastened by welds for a solid, no-shift hold.

Close-Quarters Cleaning – Lightweight handle fits corners, grout, and fixtures.

Durable by Design – Built to resist repeated force without bending or slipping.

Flexible Options – Available as handle-only or bundled kit with Light + Heavy Duty pads.
